1. The drawings are objected to because they are of insufficient quality for reproduction and are there considered to be informal. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1, 7, 13 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wetherell, Jr '955, of record in view of Klima et al '479.

Note the cylindrical container 10 with a rim (20,39 and 40). Note also the seal 38. To have formed the seal as a membrane in the manner taught by Klima et al would

have been most obvious. Note the recess shown in the embodiment in Figure 4 of Wetherell, Jr which is considered to inherently be annular with a cylindrical neck. Note also that the rims are flush as shown in Figure 4 of Wetherell, Jr.

4. Claim 11 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claim/

5. Applicant's arguments with respect to claims 1, 7, 13 and 14 have been considered but are moot in view of the new ground(s) of rejection. Claims 2-6, 8-10, 12 and 15-18 have been canceled.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents who other compartment arrangements.

7. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a).
